manufacturing services

Hunter Cable Assembly

Specialist manufacturer and distributor

– cable assemblies, wiring looms, cable harnesses, box builds, sub assemblies and waterproof connectors

About us

Hunter Cable Assembly Ltd (HCAL) is a specialist manufacturer and distributor of cable assemblies, wiring harnesses, cable looms, box builds, sub assemblies and waterproof connectors.

Hunter Cable Assembly Ltd has been manufacturing cable assemblies for 30 years and has considerable expertise with a wide range of connector styles and customer requirements.

Our UK office is based in Berkshire and has several long-term strategic partnerships with manufacturers in the Far East.

As a consequence we are able to fulfil small, medium and large production requirements.

The Quality Management System of Hunter Cable Assembly Ltd has been assessed and is certified to BS EN ISO 9001:2008.

Hunter Cable Assembly Ltd follow the IPC 620 standards for all cable manufacturing.

PHILOSOPHY

Hunter Cable Assembly has a very simple strategy – to always be one of the top suppliers to each of our customers – that way we never lose any. We are able to deliver whatever products our customers need to a high quality standard, on time and with a competitive price. We deliver a service that ensures our customers achieve the lowest cost of ownership.

CABLE ASSEMBLIES

We have more than 30 years experience in manufacturing cable assemblies and have the ability to produce whatever assembly you require: high complexity, low complexity, high mix, high volume.

With production facilities in the UK we can respond to short term fluctuations in demand. Hunter Cable Assembly is able to provide a complete service from design, drawing, prototyping through to full production volume.

CABLE HARNESSES AND LOOMS

We can supply and manufacture wiring harnesses, processed looms of any quantity or complexity.

- Large assemblies
- Complex Looms
- Mixed Signals

SPECIAL ASSEMBLY AND BOX BUILDS

Hunter Cable Assembly has the skills to be able to assemble and test your electrical products, no matter how simple or complex.

We will source all components, assemble, test and ship to your facility in the quantities you require, on the day that you need it.

When customers require special to type assemblies and / or sub-assemblies we can support those requirements;

- panel assembly
- machined parts and assemblies
- box builds
- overmoulded capability with in-house CAD design

ASSEMBLY TYPES:

- Point to Point Crimp
- Point to Point Solder
- Multicore Assembly
- IDC Flat Ribbon
- Discrete Wire Crimp
- Multicore Data Cables
- Pre-Insulated Crimps
- Network Patch Leads
- Audio Leads
- Coaxial Leads
- Moulded Leads

Hunter Cable Assembly

HUNTER CABLE ASSEMBLY
manufacturing services

RF COAXIAL / TRIAXIAL

Terminated with all connector types:
BNC, TNC, SMA, SMB, N-Type, PL259/
SO239, MCX, etc.

MILITARY

Custom military cable assemblies and connectors meet MIL-STD requirements for extreme environmental situations.

RIBBON / FLAT

All popular types of connectors available with IDC termination include:

BT224, D-subminiature, DIN41612, PCB connectors, DIL headers, etc.

OVERMOULDED ASSEMBLIES

Wide range of overmoulding options to improve strain relief and mechanical structure for the wire terminations and cable flex life.

In-house 3D CAD design and overmoulding service.

WATERPROOF CONNECTORS & CABLE ASSEMBLIES

Terminated with M8, M12, M16, DIN, D-SUB connectors.

COMPLEX LOOMS & MIXED SIGNALS

Complete range of assemblies from the simplest cable to the most complex harness.

Digital, analogue, power and RF signals can all be incorporated into a single loom assembly for ease of installation.

Our manufacturing service is designed to provide:

- Right Quality
- Right Price
- Right First Time
- Right On Time

In addition to a first class manufacturing capability we are able to offer a complete range of services designed to add value to your business.

Services

- Cable assembly manufacturing
- Design for manufacture support
- In-house CAD design
- Cost Down programmes
- Design for quality support
- No restriction on batch size
- 100% tested to customer requirement
- Scheduled orders and 'call off'
- Buffer stock holding to minimise lead time
- KANBAN, FAXBAN, JIT
